## **Project Update**

We have updated the CAPRM II Project Working Document which can be viewed in the Working Document Section of our website at <http://www.pepps.fsu.edu/caprm/>, look for "CAPRM Working Document II: Rev. 15." You will find that the document reflects the new issue structure decided on during the last meeting and a list of all the indicators anticipated to be included in the final project.

## **Reminders**

We are still planning to send the document to the publisher and have it printed by December 31, 2002. Accordingly, please try to have new CAPRM II indicators reviewed by the next meeting, the majority of this meeting will focus on review of these indicators that were not part of CAPRM I. We look forward to seeing you there.
